CAREER OBJECTIVE

Aspiring Software Engineer with a strong foundation in Computer Science, Cybersecurity, and AI applications. Seeking to contribute to an Organization as a Software Engineer Trainee by leveraging my skills in Java, Python, OOP, and Cloud technologies to deliver efficient and secure software solutions while continuously learning through agile collaboration.

EDUCATION

Bachelor of Engineering in Cyber Security **Aug 2023 - Jul 2027**
J.J College of Engineering and Technology

- CGPA: 9.3 (Upto semster 4)
- Relevant Coursework: Operating Systems,DBMS, Computer Networks, Cryptography

TECHNICAL SKILLS

- **Languages**: Java, Python(Basic), C(Basic), SQL
- **Core Areas**: OOP, DBMS, OS, CN, SDLC (Agile)
- **Database & platforms**: Firebase, MySQL, GitHub, VS Code, IntelliJ IDEA
- **AI & Data**: TensorFlow, PyTorch, Keras,CNN
- **Cybersecurity**: Network Security, Authentication Systems, Secure Application Design.
- **Soft Skills**: Leadership, Teamwork, Mentorship, Event & Team Management

PROJECTS

International Conference Website Development (Frontend & DB) **Dec 2025 - Present**

- Developed a professional conference website with responsive UI using HTML, CSS, Bootstrap, and Firebase.
- Implemented sections for committees, schedules, registration flow, and contact management.
- Enhanced UI with cards, animations, gradients, and structured layouts.

Student Administration & Progress Management System (Frontend & Backend) **Oct 2025 - Present**

- Designed an admin tool to manage student profiles, tutor details, attendance, and test scores.
- Generated cumulative performance reports for academic monitoring.
- Focused on modular design and database efficiency.

Automated Plant Disease Detection AI Model (Major project) **Aug 2025 - Present**

- Developed a deep learning–based system to detect plant diseases from leaf images using Convolutional Neural Networks (CNN).
- Implemented image classification to accurately identify diseased and healthy plant leaves.
- Built an interactive Streamlit application to display results and provide basic treatment recommendations.

LEADERSHIP & EXTRACURRICULARS

- Actively participated in hackathons (SIH& Other), coding competitions.
- Assisted in organizing departmental events(Cyber awareness program), seminars, and hackathons.
- Contributed to team projects, guiding peers and collaborating on technical solutions (SIH & Other).
- Maintains an active presence on coding platforms: LeetCode, HackerRank, CodeChef.
- Engaged in online learning programs and certifications to enhance technical skills.

CERTIFICATIONS

- Java for Beginners-Infosys Springboard.(Dec 2025)
  JPMorganChase&Co. – Advanced Software Engineering Virtual Experience (Forage) (Ongoing)

Learning software engineering workflows, secure coding, and project-based problem-solving.

- Spoken Tutorial – IIT Bombay, Completed courses in [Java / C / Python / SQL / Linux]
- Hacker-rank, SQL(Basic)

LANGUAGES

- Tamil (Mother tongue)
- English (Fluent)

DECLARATION

I hereby declare that all the information provided above is accurate and genuine to the best of my knowledge, and I take full responsibility for its authenticity.
